

H2LiftShips: BosonsWave by Bob Freeman | SciFi Tech | The Solar Sail crew of *BosonsWave* and Captain Herb, an Eastern mountain gorilla of the Heliospheric Navy, are fighting the algae rocket ships for control of the bioGels. On one side, we have tools and weapons invented by the sentients after eons of development. On the other side, accumulations of brainless algae have joined with angry bioGel computers calling the shots.

Running Scared by Benjamin Bradley | A Shepard & Kelly Mystery | Book Three | Crime Thriller | Detective Delaney Shepard returns to her troubled past to face the mistakes she'd spent her whole life trying to forget. When new evidence surfaces in a cold case, she's thrust back into a world where she is the prime suspect.

Nothing Comes After Z: Death and Retribution in Tepoztlán by Ana Manwaring | A JadeAnne Stone Mexico Adventure | Book Three | Crime Thriller | Two cartels with government officials in their pockets. A handsome doctor. Her old nemesis. Human trafficking... Is JadeAnne safe anywhere?

The Monster by Ron Kinscherf | The Bakers' Patio series | Volume IV | Children's Storybook | Life is nothing but curveballs and just when you are feeling confident and full of pride, a simple decision can toss your life onto an arc of potential disaster.

Christian Politics and Civil Philosophy by Dr. Sanford Wood | Philosophy | This study demonstrates the overall coherence of the moral and political teaching of *Leviathan*. While Hobbes is frequently depicted as being inconsistent or insincere, this book demonstrates how Hobbes created a world of value from a world of fact.
